

With passion and professionalism we bring the world of the Bundesliga to life for everyone.

The main business area of Sportec Solutions GmbH is the collection, storage, refinement and delivery of official match data. Sportec Solutions, a subsidiary of the DFL Group, operates the databases on their behalf and bundles the operational sports technology functions for the Bundesliga. Customers include the DFL and the German professional clubs themselves as well as TV partners and licensees of the DFL.

For our team in Munich (Ismaning) we are looking for an

## Intern Project Management Football Data (m/w/d)

### Your job:

- You will be part of our product and analytics team and take an active role in the management of current projects which aim to deliver innovative football data to our different customers, e.g. DFL and FIFA
- In one of your key projects, you support our “Bundesliga Match Facts powered by AWS” team which includes the design and prioritization of use cases, the management of timelines and the support of the development process to deliver new key performance indicators
- You organize and lead meetings, create presentations and documents to support management decisions and communicate with different stakeholders
- You actively improve workflows, reports and the usage of tools to guarantee the quality of the projects and a high level of customer satisfaction

### We expect:

- Studies of sports management, business administration or a similar study program
- First experiences in the management of projects, e.g. through former internships
- A hands-on mentality and a goal-oriented, independent working style
- A high level of responsibility and teamwork
- Fluency in English and German
- Advanced skills in MS Excel and MS Powerpoint
- Solid technical knowledge and ideally initial experience with agile software development
- An affinity for working with data and understanding the power of data storytelling
- A passion for football and the ability to understand the needs of fans, clubs and media partners
- You should be available for 5 or 6 months starting in the last quarter of 2020

### We offer:

- An interesting, diverse and fun occupation in an international and sporty surrounding as part of our motivated team
- The opportunity to contribute to the innovation leadership of the Bundesliga
- The possibility to gain valuable working experience taking over an active part in the delivery and usage of smart football data
- Remote work is extensively supported
- We accept applications for full-time internships or working student positions (with min. 20 hrs/ week)

If you are interested, we look forward to receiving a meaningful application (with your earliest possible start date) **exclusively by e-mail to:**
