

With passion and professionalism we bring the world of the Bundesliga to life for everyone.

The Bundesliga is one of the world's most successful sports leagues being a social institution in Germany since 1963 with brand awareness levels of 99% and millions of enthusiastic fans all around the world.

The main task of **DFL Digital Sports GmbH** is the production of media content in order to promote the Bundesliga brand internationally. Based in **Cologne**, the DFL Digital Sports GmbH produces and publishes media content via a variety of digital platforms. This includes production of content for international markets and the implementation of the league's own platforms.

For our team in Cologne, Germany we are looking for an

ANDROID DEVELOPER (m/f/d)

Here's what's waiting for you on the pitch:

- Development of the Bundesliga Mobile Apps and interfaces to the state-of-the-art cloud-native backend environments based on microservices and self-contained systems
- Designing and building applications on the Android platform and the regarding frameworks
- Working with modern cloud services like AWS, GCP, Azure with a high focus on the AWS ecosystem
- Iterative improvement of our CI/CD processes as well as maintenance of our development tools
- Continuous performance, security and stability monitoring as well as testing of applications and entire architecture

Here's what should be in your sports bag:

- University degree, preferably in computer science, business computer science, media computer science, or comparable education (eg certified IT specialist)
- Minimum of 1-2 years experience in the agile development, testing and operation of mobile applications and systems
- Experienced in native Android development (i.e. Kotlin), architectures, trends and emerging technologies
- Familiar with mobile / cloud software stacks, especially Kotlin, Node.JS, Git, AWS and CI / CD pipelines (eg Bitrise / Bitbucket)
- Having Hands-On Experience with React Native as an advantage
- A high level of responsibility and teamwork
- Hands-on mentality
- Fluent in English

As an ideal candidate you:

- Can think "out of the box" and identify innovative trends
- Have a strong interest in learning and developing yourself
- Are a great team player looking forward to work in a highly motivated team of internal and external developers
- Are really good in managing stakeholders
- Can proudly state that Respect & Appreciation is part of your daily work life

What we offer:

- A modern new work environment with agile methods (e.g. SCRUM & Kanban), OKR framework, design thinking approach.
- Exciting and diverse tasks in a team using agile methods and devsecops approach
- The opportunity to work autonomously in a growing, international organization
- A modern office space and flexible working environment
- Company pension plans from the 1st day
- On-the-job and off-the-job trainings (optional)

The position is initially based on a two-year fixed contract.
